## Legal Disclaimer

The Tokenomics (Tokenomics), as it may be amended from time to time, is hereby incorporated by reference. Cache DEFI Project will distribute the Cach DEFI Tokens (CACH) to exchanges or third-party sellers. Cache DEFI Project makes no representations or warranties, express or implied, including any warranties of title or implied warranties of merchantability or fitness for a particular purpose with respect to the Contract or Tokens or their utility or the ability of anyone to purchase or use Tokens. This token will not be offered for sale in Canada or its provinces and territories. Without limiting the foregoing, none of the Cache DEFI Project parties represent or warrant that the process of purchasing and /or receiving Tokens will be uninterrupted or error-free or that Tokens are reliable and error-free. As a result, Buyer acknowledges and understands that Buyer may never receive Tokens and may lose the entire amount Buyer paid to exchanges or third-party vendor. Cache DEFI Project will not ask for personal information or payment information from a potential Buyer, nor will any of its agents. The sale of Tokens and Tokens themselves are not securities, commodities, swaps on either securities or commodities, or a financial instrument of any kind. Cache DEFI Token is a payment token. Accordingly, this document does not constitute investment council, advice, or solicitation for investment in any security. Purchases and sales of Tokens are not subject to the protections of any laws governing those types of financial instruments. This Agreement and all other documents referred to in this Agreement, including the White Paper, do not constitute a prospectus or offering document and are not an offer to sell nor the solicitation of an offer to buy an investment, a security, commodity, or a swap on either a security or commodity. Buyer should not participate in the CACH Token Distribution or purchase Tokens for investment purposes. Tokens are not designed for investment purposes and should not be considered as a type of investment. Company has prepared this white paper for the sole purpose of introducing the technical aspects of the CACH tokens and the Cache DEFI Project associated platform components, and its underlying blockchain protocol. This document does not constitute any offer, solicitation, recommendation, or invitation for or in relation to the securities of any company described herein. The White Paper is not an offering document or prospectus and is not intended to provide the basis of any investment decision or contract. The information presented here in has not been subject to independent audit, verification, or analysis by any professional legal, accounting, engineering, or financial advisors. The White Paper does not purport to include information that Buyer might require to form any purchase decision, nor does it comprehensively address risks of Tokens, which are numerous and significant. Company (along with its directors, officers, and employees) does not assume any liability or responsibility whatsoever for the accuracy or completeness of information contained in the White Paper or for correcting any errors herein. Furthermore, should Buyer choose to participate in the sale of Tokens, Company does not assume any liability or responsibility whatsoever for any loss of market value of Tokens. The content of the White Paper may be challenging and require a high degree of familiarity with distributed ledger technology to comprehend Tokens and associated risks. Readers of this document are encouraged to seek external advice and are solely responsible for making their own assessment of the matters herein, including assessing risks and consulting technical and professional advisors.

## RELEASE DISTRIBUTION TRANSPARENCY

### Breakdown

---

42% of distribution will be allocated to be sold for the reserve fund.

5% will be lost in fees, network fees, network loss, etc. if the amount of losses is less than 5% then remaining funds will be deposited into the reserve fund.

14% exchange fees. If the amount is less, then additional funds remaining will be deposited into the reserve fund. This can also include marketing fees, setup fees etc. to participate in exchanges.

39% will be allocated for token holders that provide liquidity to the token. I.e. Yield farming or Liquidity mining.

If tokens are not allocated or sold, then the remainder will be burned. Additional tokens proceeds from sales will be added to the reserve fund. Any additional funds retained will be added to the reserve fund.
